# Assessment 2

| Assessment Name: | Survey Design |
|---|---|
| Weight: | 10% |
| Due: | Friday 23rd September 5pm, Week 11 |

## Summary

You have learnt some of the basics of HTML and CSS. Now is the time to make something fun and useful for yourself.
Your task is to create a Survey Form in HTML and CSS.
You can decide on any topic for the survey but it must be appropriate.
The survey must be a **single** HTML page associated with an **external** CSS file.
Both these files should be your own work.

**POSSIBLE TOPICS**

- favourite movies quiz
- sports and recreation questionnaire
- flight/hotel booking
- gadgets and technology survey
- super power/hero quiz
- geography quiz

## Notes

Any images sourced from the internet and used in your survey must be referenced in the footer of your survey.

Test your survey form in different web browsers.

You should validate both your files before you submit your work.

Take a screen capture for each file submitted and paste these into a Word Document. This is the only documentation required.

You may reuse this in your final project.

## Requirement

A **zipped archive (.zip)** containing a single HTML page, a CSS file, a Word Document (showing the validation results) and any other resources. Upload to Blackboard for online submission.

## Design Section

Use the guide called **Web Design Best Practices Checklist** on Page 246-247 of your textbook for this section

## Marking Schedule

| Section | Components | Marks |
|---|---|---|
| HTML | Correctly used the following components: | |
| |     Text input | 2 |
| |     At least one HTML5 input element | 2 |
| |     Radio input | 2 |
| |     Checkbox | 2 |
| |     Dropdown selection | 2 |
| | A question section in <fieldset> with a <legend> | 5 |
| | Each question/option has a <label> | 5 |
| | Submit button linked to a form processor | 5 |
| CSS | Background - image or gradient as well as default colour | 3 |
| | CSS applied to form elements | 2 |
| Validation | HTML validates with https://validator.w3.org/ | 3 |
| | CSS validates with http://jigsaw.w3.org/css-validator/ | 2 |
| Design | Page Layout | 5 |
| | Colour and Graphics | 5 |
| | Content Presentation | 5 |
| | Total | 50 |

## Late Submissions

The Black Board upload link will disappear one week after the due date.

Late submissions will incur a 10% penalty for each day (weekend included) after the due date.

You should email anita.murphy@sit.ac.nz if you have any queries regarding submission.
